When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

London, 11th.—The following are the latest election returns:—

Conservatives	194
Liberal Unionists	27
	221
Radicals	163
McCarthyites	27
Working men	5
Parnellites	5
	199

The *Daily News*, Gladstone's principal organ, says that the Radicals have not only to fight against the opponents of Home Rule, but also against the privileged classes and the influence of the clergy, the hotel-keepers and the licensed victuallers.

The Conservative papers admit that Gladstone will have a small majority, but not sufficient to force Lord Salisbury to resign, as he will not be able to carry any measures with such a trifling and heterogeneous majority that it may fall to pieces on the first important question submitted to the House.

It is rumoured that the French Cabinet will resign, owing to its defeat on the Dahomey question

The Princess of Wales has left Copenhagen for London.

Paris, 11th.—Government has decided to ask for 800,000 francs more, for the Chicago Exhibition.

Catania, 11th.—Etna is again in eruption and the inhabitants are greatly alarmed.

Pasteur is ill, with symptoms of cholera.

Madrid, 11th.—Quarantine has been imposed on all vessels from Russia and Eastern Europe in general. Also on the French frontier.

St. Petersburgh, 11th.—The people rebel against the measures taken to stop the cholera. A mob collected in a threatening attitude in front of the Governor's house. The police arrested the ring-leaders.

THE ELECTIONS IN THE U. KINGDOM.

On June 27th, the eve of the dissolution, parties were supposed to stand thus:—

Conservatives	307
Union-Liberals	71
Gladstonians	292
Total	670

Thus on the vital question of Home Rule the Government had a majority of 86. It was necessary for Mr. Gladstone to win 43 seats from his opponents in order to make the numbers exactly even. Up to Monday (July 11th) he had won 40 seats out of 422, and if the remaining constituencies give a like result he will be winner of 65 seats at the close, which will count 130 on a division.

That is to say Mr. Gladstone will probably come into the new Parliament with a majority of 44, viz:—

Conservatives	271
Union-Liberals	42
Gladstonians	357
Total	670

But, a majority of 44 is very much less than the Grand Old Man expected, and would probably prove insufficient to enable him to carry on the government of the empire. We have been always told that nothing less than 70 can be considered a working majority. Lord Salisbury had a majority of one hundred when he came into office in 1886. Gladstone had even more when he succeeded to power in 1880.

The position of parties becomes more serious when we examine their composition.

Conservatives and Union-Liberals.	
England	274
Scotland	22
Ireland	17
Total	313
Gladstonians.	
England	221
Scotland	50
Ireland	86
Total	357

Thus as regards England, without the sister-kingdoms, Mr. Gladstone would find there was a majority of 53 against him, and although this would be more than compensated by his majorities in Ireland and Scotland there would be open to Lord Salisbury and his party the plea that England has emphatically declared against conceding Home Rule to Ireland. To carry such a measure over the heads of the English people would be nearly as bold a proceeding as was Pitt's forcing the Union upon Ireland at the point of the bayonet in 1800. So that, if even Mr. Gladstone were to succeed in carrying Home Rule through the House of Commons, next session, he would find the House of Lords to reject it, as being contrary to the expressed wish of the people of England. If Mr. Gladstone had a powerful majority, say of 100, in the House of Commons he might defy the House of Lords, but with a feeble majority of 44 it would be impossible.

What is likely to be the upshot of so complex a position of affairs? That is more than anybody can venture to predict. If we look to the past political history of the U. Kingdom we find that when parties were so evenly balanced one or other of the commanders has made a sudden change of front. The Duke of Wellington was the most violent opponent, down to 1828, of the Catholic Claims, yet in 1829 he brought in the law of Catholic Emancipation and compelled George IV. to sign it: the mob then broke the Duke's windows at Hyde Park corner, but the Duke prided himself ever after on having strengthened the British Constitution. Sir Robert Peel was the champion of Protection down to 1846, but in that year he suddenly wheeled round and, declaring for Free Trade, abolished the Corn Laws, amidst the violent denunciations of his party. Mr Gladstone imprisoned Mr. Parnell, the leader of the Home Rule party, but when the elections of 1885 went against him he became at once as earnest an apostle as he was formerly a persecutor.

Even Lord Salisbury on the same occasion permitted the Viceroy Lord Carnarvon to confer with Mr. Parnell as to the possible bases of Home Rule. He went even further, and declared in his speech at St. Albans that, "with proper "guarantees, he saw no reason why "the relationship that existed between "Austria and Hungary might not be ad- "vantageously adopted between Great "Britain and Ireland."

It is, therefore, by no means impossible that a sudden change of front take place in England again, as in 1828, in 1846, and in 1886 Either Mr. Gladstone may throw up the Home Rule project and embrace the Union-Liberals, or Lord Salisbury may declare that a Conservative Home Rule bill can alone save the situation. In any case the new Parliament will probably be of as short duration as that of 1886, which lived only 6 months. Another general election may be safely predicted either this year or early in 1893.

HOW I MET FUERST BISMARCK.

(From our German Correspondent.)

Whilst in Berlin, in the gay and giddy turmoil of social intercourse of the capital, I determined that I should turn to some account the many River Plate friends and fresh acquaintances I met, and my proposal to organize a concert for the benefit of the German Hospital in dear old Buenos Ayres was warmly greeted. With the co-operation of Bank Director Schulze, and of Doctor Diederich Hahn, of the Deutsche Bank and famous as the Bismarck-Redner, the concert came off under the patronage of your old friend Baron von Rotenhan, Secretary of State for Foreign Affairs; it was a great success, so much so that Baron Rotenhan wrote to me on the eve of my return to the Plate: "When arriving in Buenos Ayres you may well lay claim to the thanks of the German residents for your good services to the hospital"; but of this anon; the concert, the programme, proceeds, etc., can stand over, for I wish to tell you first "how I met Bismarck."

Dr. Diederich Hahn very kindly favored me with a letter of introduction to Dr. Hofmann, editor of the *Hamburger Nachrichten*, Prince Bismarck's organ. Dr. Hofmann, who had just returned from Friedrichsruhe, showed me every attention and expressed much regret that I could not postpone my departure for South America, as he would thus have the pleasure of personally presenting me to the Prince, and gave me a note to Dr. Chrysander, Prince Bismarck's secretary, as well as a telegram from Dresden announcing that Count Herbert Bismarck and his bride had arrived there on their way to Friedrichsruhe.

After handing Dr. Hofmann's note and telegram, Dr. Chrysander met me immediately in the Prince's reception parlor and greeted me in a hearty manner; he said the telegram was correct, but he much regretted that he could not announce my presence to the Prince as he had stringent orders from his superior, Dr. Schwenninger, then absent, to present nobody under any circumstances in these days. Furthermore, Bohlen was at that time staying with Bismarck. Dr. Chrysander, however, entertained me and invited me to take part in the next Waldkneipe on the property; he showed me over the parks and talked over the preparations going on for the reception of Count Herbert and his bride Countess Hoyos.

The Waldkneipe was a most agreeable one, as I happened to meet the famous painter Allers, who is now preparing a Bismarck Album in Friedrichsruhe. As I parted from Dr. Chrysander, he advised me to return next day, as the Prince's visitors would depart, and the day after, 21st May, Count Herbert and his wife would arrive with a deputation of 300 Dresden ministrels; I might meet the Prince on the 20th in the Park.

Next morning I was punctually at the Castle and Dr. Chrysander conducted me to the park; a few minutes later Prince Bismarck appeared. He was dressed in his familiar frock coat, wore a slouched hat, "chambergo," and held a thick walking-stick; his two large hounds followed his steps. As he advanced towards me, I introduced myself, stating that I had travelled seven thousand miles to shake hands with him. He inquired whence I came. "From B. Ayres, I answered, where I have resided 27 years, and now that I return I could not leave my dear Fatherland without seeing the man to whom we owe all, especially abroad, and whom all revere." I told him I was correspondent of the BUENOS AYRES STANDARD and son of the Platt-Deutsche poet Dr. Wilhelm Schroeder who had written his (Bismarck's) biography. The Prince listened with much attention and then remarked, as it began to rain in torrents, that he was sorry on my account, as he being a farmer he liked the rain; I answered that I was accustomed to rain and knew its value, being an estanciero of the Argentine Republic.

How are affairs in Argentina? What kind of Government have you at present? To these queries I answered that with a stable and strong Government, better prospects were in store for the republic. With regard to general affairs, the cows on my estancia gave a yearly increase of 40% and sheep 45%. The Prince was astonished and remarked that such a country was bound to go ahead.

During our interview a gentleman and lady came up and introduced themselves. As the gentleman in question was connected with the iron industry on the banks of the Rhine, the Prince asked if Americans bought much iron on the Rhine. I informed him that for the last ten years South Americans bought much wire, especially fencing-wire. As the couple took leave, the Prince beckoned me to accompany him in his walk. He seemed to enjoy the rain hugely, quite in his element. He drily recalled the days when as Deichhauptmann he would have been glad to seek shelter in a hut to avoid such a downpour. I told him that I would leave that same evening for South America; he requested me to convey his greetings to the Germans residing on the banks of the La Plata River, and to thank the editor of the *Deutsche Zeitung* for the copies of his paper. I promised to send him the STANDARD, which defended German interests and to a certain extent represented them in La Plata. Whilst talking over American affairs we arrived at the park gate; the Prince regretted that he had to return to the house, as he expected guests; he gave me a hearty shake-hands and retraced his steps.

With regard to the general appearance of the Prince, one would suppose he is under 67 years rather than over 77; he is hale and hearty for his advanced age.

The same day I returned to Hamburg and spent my last evening in Germany with Dr. Hofmann, his co-editor the poet, Dr. Ernst Jungmann, and their families, our old River Plate friends Cesar Stock, Walter Leinau and Adolf Schroeder. I dined with Dr. Hofmann and his charming wife at their beautiful Villa outside Hamburg; we drank the health of the great chancellor and then Dr. Hofmann showed me a great array of gifts from Prince Bismarck, quite a Bismarck museum; a fitting ending to my never-to-be-for-gotten Bismarck day.

Emilio Schroeder.

OUR LONDON LETTER.

TOPICS OF THE DAY.

(From our own Correspondent.)

June 14th.

London is dull and cold. June snows on Scottish mountains have had their result. The temperature here has fallen 30 degrees. The ladies to-day at Ascot races must have been perished. The Stock Exchange too is freezy. The continued fall of the gold premium at B Ayres and the nomination of Señor Saenz Peña and Señor Uriburu on Sunday last have had a good effect, but the House to-day is chiefly engaged with its monthly settlement. The little boom in Americans they tried to get up yesterday on the strength of good crop reports in the States was not sustained, and South Americans, though steady, have not sensibly changed. Argentines are, however, 4 to 7 points higher compared with making-up prices May 25th.

From computations made in New York the American wheat crop this year is to be even larger than that of last. The news is a surprise, as previous accounts were less favourable. In England the recent fine weather has had a good effect on the crops. The wheat market, in face of the general prospects in Europe and America, is depressed; but it is too early to make any safe prophecies. The hay, they tell me, will be a light crop. The rainfall for the last six months and more has been unusually small in this country.

***

Some amusement is caused by Lord Randolph Churchill's balance-sheet of the Mashonaland expedition, which seems to have spent £12,182 in sundries out of £16,000 raised to acquire concessions, claims, properties etc. Lord Randolph's personal outfit absorbed £1750. Major Giles required only £131; Mr. Edgell £62 and Mr. Perkins £15. Lord Randolph's outward trip is put down at £295 and the homeward at £249. Against £12,000 expenses, there was an outlay of £2,000 for gold claims. "The mine" —one half of the Matchess near Hartley Hill—promised well on the surface "reports Lord Randolph—" but further sinking on the reef is at present prevented by the influx of water into the workings." According to *Land* and *Water* the original members of the syndicate and their contributions were—Lord Randolph Churchill £5,000. Sir Algernon Borthwick £1,000. Duchess of Marlborough £1,000. Lady Sarah Wilson £1,000. S. Newmann £1,000. Marquis de Breteuil £994. Baron M. de Hirsch £1,000. Colonel North £1,000. Lord and Lady Wimborne £2,000. H. H. Marks £1,000. Major Warde £1,000. Total £15,994. Lord Randolph proposes to convert the syndicate into a limited liability company and to raise the capital from £16,000 to £30,000. The subscribers to the syndicate would receive £1 shares equivalent in amount to their subscription. On the 10,000 new shares to be issued "pro rata" 12s. per share would at once be called up. For this capital the shareholders would have half of a flooded mine and the option of a share amounting to £5,000 in a scheme for working deep level mines in Johannesburg.

***

Your old guest Lord Herries on behalf, we suppose of catholic Britain and Ireland and the Isles, has interpellated Lord Salishury in regard to the Uganda business. The premier was up in a moment with a telegram in his hand from Captain Williams, who seems to be on his way to Zanzibar, and reports that when he left Uganda fighting was at an end, and both Protestant and Catholic (French) missionaries were safe. Lord Salisbury, of course, refused to believe the French reports until Captain Lugard's report arrived. It seems pretty certain that his dispatches have been intercepted. In the meantime, it is understood that the East African Company has sent out orders to its agents to abandon Uganda which appears to be a commercial failure. These orders can, however, be cancelled for a consideration. The policy of Sir William Mc-Kinnon and his virtuous company appears to be, to threaten to abandon the place unless the Church Missionary Society gets more money out of its innocent subscribers to contribute to the company's expenses. When the missionary fund fails, the company threatens the government that it will abandon Uganda, missionaries and all, unless it not only makes the surveys for a railway to the coast, but subsidizes the line for the benefit of the East African shareholders—or, the precious territory purchased by Lord Salisbury at the price of Heligoland must be abandoned. That may be an exaggerated statement of the case, for it is a *Pall Mall Gazette* view of it, but it is very likely true, and at this moment whilst Mr. Balfour is evidently instructed to answer no questions on the subject without notice, in the House of Commons, we are all waiting to hear if the company's latest threat of abandonment has been withdrawn and what is the price paid by Lord Salisbury for that withdrawal. He must be quick. His metaphysical subordinate and First Lord of the Treasury has in enigmatical language allowed us to understand that parliament will be dissolved about the 28th. It would never do for the government to go to the country with the only feather they have in their caps damaged. The Tories prate of Lord Salisbury's astute as well as prudent conduct of foreign affairs. But a foreign policy requires time to be found out. It is unfortunate that at this critical moment two old troubles—codfish and missionaries—should turn up again.

The Continental world is excited with the open war between the German Emperor and his ex-Chancellor. You will have seen an extract from *Vanity Fair* stating that, on his way to Kiel, the Emperor stopped the train near Prince Bismarck's country residence and sent word for him to come to the station, as he wanted to see him. The tale goes that Prince Bismarck, following the entreaties of his family—meaning, I suppose, his rather ambitious wife—, refused to go. Other stories to the same purport and more probable are current, and all tending to confirm a rumour that both the Emperor and his dismissed Chancellor are anxious for a reconciliation; but neither of them will make the first advance. An authoritative paragraph in a Government journal denies that the Emperor has made any advance towards reconciliation and estimates that the advance must come from the other side. The German Embassy in Vienna has strict injunctions not to notice Count Herbert's wedding more than common courtesy may require. The ex-Chancellor's presence at the wedding may lead to a Bismarckian demonstration in a foreign capital.

I see in the *South American Journal* that a new morning paper in the Britannic language is to be established in Buenos Ayres under the direction of Mr. Thompson and in the interests of the financial houses in London. I am afraid the news is too good to be true. Nothing could be better than sharply defined opinions on finance in your city —opinions differentiated by the conflicting interests of a nation and its creditors. If the new paper is only up to its work, we shall all be gainers and particularly yourselves.

GREAT CONFLAGRATION.

SANDY POINT BURNT DOWN.

Advices have arrived in Montevideo of a terrible conflagration in the rising town of Sandy Point, which we may aptly call the capital of the Straits of Magellan, a place of far more importance than Argentine statesmen think; and we have it from Mr. Bridges, the Tierra del Fuego missionary who left here the other day for his estancia, that within the last few years Punta Arenas and all the country around about there has improved more rapidly than many districts in the provinces of the Argentine Republic. The sheep farms stretch along the S. E. coast in such number and such success that in a very few years there will be an unbroken line of sheep "puestos" from the Rio Negro to the Straits of Magellan.

We have yet no particulars of how the conflagration began, but we know that it held only for two hours and during that short time the church, the Government House, the barracas, the public offices and a number of merchants' stores close to the Argentine Consulate were all burnt down; and it seems that the whole place would have been left in ashes but for the praiseworthy exertions of Messrs Menendez, merchants of that town; of the Argentine Consul, Lieut. Gregory Aguerreberry, and of the officers and crew of the Chilian men-of-war in the port. We expect by the next steamer from the Straits fuller details of this great disaster.

GREAT WHEAT ROBBERY.

SCANDALOUS DETAILS.

We are indebted to our colleague *El Norte de Buenos Aires* for disclosing one of the greatest robberies and swindles ever perpetrated in our agricultural districts. A robbery involving as it does the very officials of the district, for so large an amount, and conducted with such astuteness calls for the most searching inquiry by the Government of the province of Buenos Ayres, in order to restore confidence amongst the farming classes, who feel justly alarmed that if the parties implicated in this robbery owing to their official positions are allowed to escape, there is an end to all justice in the country, and property ceases to have its rights.

The particulars given by our colleague are as follows:—In the district of Ramallo, the late Mr. Edward Stegmann had a large wheat farm, and just before his death he sold the crop to Don Abraham Piatti, who a few days ago sent to the chacra for the wheat, which to his astonishment he found had vanished; he at once made application to Madame Stegmann, the widow, who lives in Buenos Ayres, and she instructed her agent in Ramallo to inquire into the matter and deliver the wheat to the buyer, but it turned out that Severo Rocha, who was in charge of the chacra had brought a lot of carts and removed the wheat. Madame Stegmann at once applied to the authorities of Ramallo for the arrest of Rocha, which to her surprise she found impossible to obtain. She then applied to her brother who lives in La Plata and who is a friend of the Governor, and ultimately, by this means obtained an order or a note to the Ramallo authorities which caused the arrest of Rocha. The comisario Villanueva who held Rocha as prisoner notified the judge that the prison was unsafe and the prisoners might very easily escape; application was then made to the Juez de Crimen to have the prisoner removed to Buenos Ayres, but up to the present it has had no result. The robbery consists of 800 bags of wheat, which the late Mr. Stegmann sold to Piatti at 7$ a bag and which after Stegmann's death Rocha, who was in charge of the chacra, sold 750 bags at 6 dollars a bag to Sr. Traverso and 50 bags to the Molino Ramallo at 3 dollars a bag. Unfortunately Madame Stegmann cannot embargo the product of the robbery, owing to the wheat having been turned into flour. Traverso declares that when he bought the wheat from Rocha, the Intendente of Ramallo came with Rocha and made the bargain, whilst the Molino Ramallo received the 50 bags of wheat in the presence of the Comisario Villafañe, who actually intervened in the business. The Stegmann peons say that Rocha made the Comisario a present of 8 bags of maize which belonged to Stegmann. A friend of Madame Stegmann's went to the Juez de Paz, Gabriel Muñoz, to expedite the proceedings, knowing that Muños was no friend of the comisario's, but he soon found out his mistake, for, by accident, he met the Judge, the Commissary, the Intendente, with some other individuals coming out of a questionable house at 2 o'clock in the morning; he then applied to Don Francisco Soto y Calvo and explained to him the scandal that was going on. The Commissary wrote a letter to Soto stating that Rocha had in his possession all the money which he received for the wheat and which was in direct contradiction to Rocha's declaration, who said that he used the money to pay off his creditors, and thus the case stands. The people in Ramallo believe that between night and morning Rocha will escape, and with much justice they ask how long are such authorities to be left in office in Ramallo. We leave it to GovernorCosta to answer the question.

THE LIQUIDATION OF THE ENGLISH BANK

APPLICATION FOR A FRESH MORATORIUM

The cat is at last out of the bag, It was officially announced yesterday that the liquidators of the Montevideo branch of the English Bank had applied to Government for an extension for another year of the moratorium conceded this Bank for the purposes of liquidation, expiring July 31, and that Government had referred the application to the Chambers with a Message recommending its sanction.

The news is not surprising, because, from the slow course of the liquidation here and the entire inattention of the reorganising committee in London to the business in this market, such a course was inevitable, unless the Bank was left to a ruinous judicial liquidation. With such an alternative it would be foolish to oppose any measure calculated to save the unfortunate shareholders and creditors of the Bank from further loss, but at the same time we think the time has arrived to speak out plainly as to the unsatisfactory manner in which the business has been conducted.

Announcing the application, the *Nacion* of yesterday says,—"We know that both the creditors and the debtors of the Bank have expressed themselves as thoroughly satisfied with the manner in which the three liquidators have conducted and will conduct the operation." This is the exact reverse of the truth, at least as far as the creditors and the local shareholders are concerned, for on every side we hear complaint and dissatisfaction. Of the debtors we cannot speak.

In the first place, the local creditors have just and serious cause of complaint as to the manner in which they have been consistently ignored by the parties in London. If it had been intended to throw them over altogether, they could hardly have been more disregarded. Not a single attempt has been made to approach them, to consult them as to the reorganisation or to ask their consent to the conditions of that operation. In spite of warning and protest, the reorganisers in London have gone on passing resolutions and obtaining orders from the Courts which are valueless out here under the conditions of the local laws. We do not suppose local creditors would have refused their consent to these, but they should at least have been consulted, and steps should have been taken to make the said resolutions and orders valid here. Moreover, it is confirmed that the new Company in London has sent $200,000, nearly a million dollars, to Buenos Aires to forward the liquidation and to enable the Bank to resume operations there, which, as we understand, it will do this month. We do not hear of a single cent being remitted here. The Montevideo creditors are just as much creditors of the Bank as those in Buenos Aires, and we fail to see why the one should receive a single cent without a proportional sum being paid to the other. Such a proceeding is not fair. We even doubt if it is strictly honest. There is nothing in either the English or the local laws of liquidation to authorise or justify a preferential payment of this description. When, at the end of this month, the Montevideo creditors see the Argentine branches of the Bank resume business and the Argentine creditors paid in full, whilst they themselves have not received a single dividend and the liquidation here is prolonged for another twelvemonths, they will not be pleased, and with good reason. It was announced, with no little flourish, that the reorganisation and the heavy call on the shareholders was for the object of satisfying the creditors by payment of interest on their claims from the date of closing the Bank, part payment of those claims in cash, and the rest in negotiable 4½ bonds. Why are not the creditors here asked to accept that arrangement—as they most probably would—instead of being threatened with another year's moratorium, without hint of payment in cash of even interest on their claims? Are we to conclude, then, that the reorganisation was a farce, and that there is no intention of carrying out the objects with which it was arranged and for which the shareholders are being mulcted, even to the extent of compensatiug a local note issue in regard to which their extraordinary liability is more than debateable?

Whilst awaiting the statement of the liquidators to enter into details, we may allow ourselves to speak as follows.

Their explanation, which is awaited with great anxiety, may or may not justify the application for a fresh moratorium, but, so far, there is no doubt that serious dissatisfaction exists amongst the local creditors. When the first application for a moratorium was made, twelve months ago, it was represented that the branch was in a most flourishing position and able to pay two dollars for every one it owed. The statement laid before the Chambers by the manager of the Bank estimated the assets at $7.117,000 against liabilities of only $3.226,000. It was also represented that the liquidation could easily be terminated in a year. The year has elapsed, and, according to the most favourable statement, the liabilities are still a million and a half, and although a certain amount of claimc (some $700,000) have been cancelled by use of credit certificates, those creditors who were not also fortunate enough to be debtors of the bank have not received a dividend.

The application for a new moratorium will have, we presume, to be submitted to the creditors for approval. They will then have opportunity of demanding a searching investigation into the state of the bank, even we would suggest, into all its operations here, the statements forwarded to London, the cash balances, etc. There is much that requires explanation, and concerning which both shareholders and creditors have a right to satisfaction. It was shewn very clearly during the trial of Mr. Smithers that the directors had not exercised that strict supervision over the conduct of the Bank which was their duty. Their negligence may equally have extended here.

EDITOR'S TABLE.

There was nothing particularly new yesterday in any quarter, except that St. Grouse's Day, the 12th prox., is fixed for the scrutiny by Congress of the Presidential election. There are a lot of silly rumours in the air, but nobody believes half of them.

The Senate met yesterday. A note from the Court of Justice in Catamarca withdrawing the demand for intervention in that province was read. The Minister of the Interior, who was in attendance in the ante-sala, was then summoned. The Minister entered the House and Deputy Perez rose to ask him to explain the grant of four hundred leagues of public land to Mr. Grumbein. The Minister said that the matter had already been sufficiently explained in a Message from the Executive. The Secretary read the Message, and the Minister added that the rights of the colonists had been duly respected, that the price at which the land was sold could not be improved on, and that the Executive was authorized by law to make such sales. Deputy Perez expressed himself as satisfied. Senator Roque Saenz Peña was named by the President to complete the Constitutional Committee. A pension was then voted to the widow and children of the late Dr. Goyena. The House then held a secret sitting, and afterwards rose.

The green-grocers in Montevideo sent round to all the newspapers there yesterday morning a big basket of vegetables, as a token of gratitude for having advocated their cause during the recent strike. This was nice. The sooner there is a "verdulero" strike here the better.

Mails for Europe to-day close at 3 p. m.; for Bolivia at 10 a. m.; for Montevideo at 4 p. m.; for the Andes at 4.30.

Nice as possible over head and detestable under foot were things meteorological yesterday. The fog at early morning was as thick as London smoke, as cold as ice, and as wetting as a shower of rain.

We thank Mr. Arnoldo Moen, of the Nueva Libreria Europa, for adding to our library a neat volume that will enable those going to Paraguay to learn the Guarani language in no time. Guarani is a fine tongue, and well worth studying.

We rejoice to see that another illustrated paper is on the tapis. It will be called "La Illustracion Sud Americana," and will be on the lines of the late lamented "Sud Americano." It will be conducted by Mr. F. Conte, formerly manager of the latter paper; and we have no doubt as to its success.

The Lord Mayor has revoked his midsummer edict against carriages in Calle Florida after dark. We can all now dash along that fashionable thoroughfare again by gas-light, and run over our fellow citizens and get run over as of old.

There was an earthquake in dull and distant Salta yesterday. It was rather a poor specimen of its kind, as it only smashed a lot of crockery in a china shop; and a young bull could have done that. Such an earthquake ought to be ashamed of itself; and perhaps it was.

We beg to call our readers' attention to the advertisement of the class now being formed at the Barracas Institute in connection with the St. John's Ambulance Society, and hope that this is the first step in the right way of rendering assistance to the injured.

Don't forgot the Rev. Mr. Porteous's lecture to-night. It will be a treat.

The Mayor of Ramallo protests that, not only he had nothing to do with the big wheat steal we reported yesterday, but he never even heard a whisper of it till he saw it in the papers.

M. Van Bruyssel, the Belgian Minister, and a highly popular member of the Diplomatic Corps, left yesterday for Europe. The Belgian community greatly regret his departure, the more so as he is more likely to be promoted than to return here, where he had won general esteem during his eight years residence as representative of his country. We wish M. Von Bruyssel a pleasant voyage home.

We call attention to the interesting account in another column of an interview which our German Correspondent, Mr. Emile Schroeder, had with Prince Bismarck during his recent trip to Europe. This reminds us of the fine portrait of the iron ex-Chancellor which Mr. Schroeder presented to us in 1885, and for which we thanked him as follows:—

"We beg to thank our esteemed German subscriber, Mr. Emile Schroeder, for a magnificent oil portrait of Prince Bismarck, the only one of the kind in the River Plate. This present takes us back twenty years, when Mr. Schroeder landed and favoured us with the never-to-be-forgotten life-size portrait of the great statesman, then crowned with the laurels of the Konigratz victory..... Whilst thanking Mr. Schroeder who, we believe, is a personal friend of the Prince, we join in the Rhein toast of the Turnverein to the health of the Chancellor, who has grown grey and glorious in his fifty years' services to the great cause of Vaterland."

Who is the gallant Major General *de Scott*? It is a "novedad" to find a soldier writing on finance; yet we learn from the *Financial Times* of June 11th that Messrs. Effingham Wilson and Co. have just published a pamphlet by Major-General A. de C. Scott, on the "Economic Position and Liabilities of the Argentine Republic." The writer takes as his motto the quotatiou, "nothing extenuate, nor set down aught in malice," and presents a very temperate review of the situation. The conclusion at which he arrives is that "the situation, though serious, is not desperate; that sacrifices on the part of the creditors of the Republic are inevitable, but that they need not be of that crushing character which some suppose." In concluding, he throws out a suggestion that the remaining period of the moratorium should be employed in "the preparation by competent hands of a correct and properly-proportioned picture of the whole situation, which may form a point of departure for the thorough examination and discussion of any proposed arrangement." This fits in as nicely as possible with the expressed intention of the President-elect to invite a Special Commission from Europe to pass the summer here and enjoy themselves while examining Miss Argentina's harum-scarum system of banking and book keeping, and blarneying our London friends.

The miserable result of the Municipal inscription is weighing on the minds of some of our colleagues. Don't fret. When Mr. Shaw Lefevre and his Committee let loose the dogs of law in search of their cash, more lively Municipal times may be expected all over the republic.

The cold weather and recent storms are telling their tale in the camp, and the mortality in the flocks is increasing rapidly. Sheep falling dead here and Argentine securities falling in Modern Babylon are a dismal coincidence.

For photographers only:—"Do you wish proofs of my love?" "No," she answered; "my negative makes them unnecessary."

Our photographic friend gives us the following tips as to the novelties in his craze: Ross's Concentric lens is a great advance on anything yet brought out. Dallmoyer's Telo-Photo lens is in long lenses another great advance. The "Amateur Photog. Annual" and "Photography Annual," both just published in England, are of the greatest possible interest to amateurs and should be ordered at once. Last year's number of the latter published at 2s quickly rose to a premium, and he had the pleasure of paying 10s for his copy. The best elementary book is that just brought out by the Ilford Company, which in matter, method, printing, general get up and cheapness, is far ahead of anything else before the public. But the publication par excellence is the "Photo Review of Reviews," which as a supplement, gives an exquisite photo of "Counting his flock" that would make all our "gentle shepherds envious.

With reference to our remarks in yesterday's issue concerning the proposed Memorial to the late Mr. Henry Fisher we are requested to add that the donatios to the fund may be sent to Mr. G. Marriot-Woodgate, Cuyo 372. What form the Memorial will take has not yet been decided upon, and much must depend upon the amount received.

We'll forswear tea, with or without milk and sugar, for the rest of our life. Just hear what our regal colleague the *Court Journal* reveals:—

"A striking fact about the Chinese use of tea, which is told on the authority of a Chinese officer, is that it is employed for preserving the bodies of the dead. A corpse placed in the centre of a box of tea, he says, will "keep" for years. He further asserts that tea which has been employed in this capacity is often exported for foreign consumption, the boxes being marked in a way known only to the natives."

The Argentine Consul in London reports that the dislike of the British public to frozen meat from this country is thawing fast, and it is now looking up and going down their throats in greater quantities every day

ON 'CHANGE.

Tuesday, July 12th.

There was a steadier feeling in the gold market this morning, but affairs in general had not quite recovered from the shock of last night. The panic had died away, but there remained the dread of its returning wave, and this prevented the bearish reaction that the shrewd ones had looked forward to at an early hour. Thirteen thousand ounces changed hands at the first ring: the price opened at $54, fell to 53.80, rose to 54.20, and closed at 53.90, say 231.18 % premium. Seventeen hundred sovereigns were sold; the price opened at $16.86, rose one cent, and closed at the opening price, say 234½ % premium.

Patriotic Bonds were dull, but very firm, closing at 71 for 31st and 70.90 for cash. Internal Bonds were weak, falling to 63 and closing at 63.20. La Plata Cedulas were weak and the whole fabric of the alphabet tottered.

Exchange ruled very dull: neither drawers nor takers in the field. Discounts were easy.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Shipments of maize continue on a heavy scale here, in La Plata, and up-river. Prices in the Rio Santiago were quoted to day at $5.70 per 100 kilos; at $5.65 ½ considerable quantities of corn could be sold to-day. We may remark that at present exporters are paying higher prices than those quoted in the market for local consumption; thus in a few days the respective positions in the market have suddenly shifted. In the Plaza Once morocho qualities of maize were sold to-day for local requirements at $5.40 per 100 kilos: there are many operators or speculators who have sold maize both here and in Rosario and are unable to deliver the corn: quite a corner in the market.

Numerous cases of non-fulfilment of maize contracts are now before the Consejo Central de Cereales of the Camara de Comercio of the Bolsa. Meantime, the exporters are obliged to enter the market and buy the corn for Europe at higher prices than those stipulated in the contracts. The sudden rise in gold has also given great impetus to the maize business.

Large quantities of wheat arrive daily at the Plaza Constitucion from the Southern districts of the province of Buenos Ayres. Millers have seized the ball on the hop: they have bought heavily at $6 for inferior, $7 for middling, $8 for good, and $9 for superior; prices are now still at the same level and exporters are out of the market. The European wheat crop and that of the United States promise good returns, prices in Europe are flat, and exporters here do not care to operate. It is said in the market that the Argentine wheat cargoes sold of late in the European markets leave heavy losses.

Dry ox hides are quoted at very low prices in the markets—at 6$ to 8$ according to class; operations are few and far between. Pea-nuts are in steady demand for local and foreign requirements. Farmers should take note of the fact, especially in the provinces of Corrientes, Entre Rios and Santa Fé, where mani or pea-nut grows well, large quantities are required by the local oil-factories.

The Salazar colony in Pilcomayo district in the province of Buenos Ayres, on the route of the Buenos Ayres Western Railway, with an area of 5000 hectares, had under cultivation last year 1000 acres of wheat and 500 of maize; this year the colony has 2700 hectares of wheat and 300 hectacres of maize: also 500 squares of alfalfa. This colony, it must be remembered, is only two years in existence. The colonists have also planted this year 125,000 willows, poplars, acacias, peach-trees, etc. The fuel supplied by these trees will enable the colonists to start a mill next year. The wheat sown is barleta, French and Hungarian: the barleta obtained the first prize at the exhibition of the Sociedad Rural in Palermo in 1890: the quality of the grain is exceptional. The wheat of this colony, furthermore, was sold this year at the top prices of the market, from 12 to 13$ per 100 kilos: it was all bought up for export. Last not least, the well-known barraquero Don Carlos Fremery is one of the partners in the company that started this flourishing colony; this gentleman has presented to Mr. C. Lix-Klett, Inspector General of the Chicago Exhibition Committee, a valuable collection of all the classes of grain and corn grown in the colony; this collection will figure in the great display of the Camara Mercantil de Frutos of the Mercado Central.

The Argentine Committee of the Chicago Exhibition has applied to all the saladeristas and owners of meat factories in the country to send exhibits of their industry to the exhibition. We have no doubt that all these gentlemen will answer the summons and send choice samples of their production to the Great American Fair.

The Empresa de Estadistica Grafica, offices Calle Alsina 655, is taking views of all the leading industrial establishments in the country: already 500 sugar factories, distilleries, etc., have been photographed for the Chicago Exhibition, and all who take an interest in the matter can apply at the offices of the Company.

The Government decree of 5th January last provides in its 1st Article that, once the total payments were effected of amounts due to the contractors of the port works for the section finished on 30th September 1890, & notification be sent to the concessionaires to completely stop the works at the expiry of three months, beginning from the date of notification, and that stoppage to continue till expiry of the term fixed in Art 15th of the decree of 31st May of last year. Article 2 of the latter decree provides that the balance of 1,445,938.48$ gold

ue on the Section of the works delivered on 30th September of last year be paid as follows:—

$330,000 cash.
40,000 on 7th June.
160,000 on 7th July.
170,000 on 7th August.
180,000 on 7th September.
185,000 on 7th October.
190,000 on 7th November.
190,938 on 7th December.

If we except December, all these payments have been effected. Once, however, this balance of 190,938 dollars gold is paid, on account of the section handed over on 30th September 1890, the formal notification must be made ordering the suspension of the works, according to the deree of 5th January. The Accountant Ganeral, in view of the above antecedents, calls the attention of the National Government to the fact that whilst that balance remains unpaid, payments after the 7th of last December have been made to Messrs. Madero and Sons in Treasury Bills to the amount of 874,232.74$ gold; he thinks it expedient to order the immediate payment of the balance due on the section completed on 30th. September 1890, in order to intimate to the contractors the suspension of work decided on 5th. January. The law that authorized those port works and the special Government decree provides for an expenditure of 20,000,000$ gold, and that amount has been paid nearly exhausted, since according to the Contaduria the expenditure on this head already reaches 19,418,632,05$ gold up to date.

Messrs Linck and Company have applied to the Minister of Marine for the right to the fisheries in Argentine waters and products on islands and rocks lying between 40° and 65° Latitude S., excluding the coast of the mainland. The total aggregate area of all these islands and rocks is not to exceed ten square leagues. Messrs Linck offer 10% of their profits to the Government. They ask for a ten years' concession and bind themselves during that period to keep up bi-monthly steamer communication between Santa Cruz and Tierra del Fuego, in combination with the mail steamers that ply through the Straits of Magellan; they promise also steamer communication twice a year between Buenos Ayres and the Falkland Islands; these steamers to fly National colors and part of the crew to be Argentine. They promise to begin business six months after signing of the concession and to erect a fishery station at Falkland Islands.

Messrs. Hume Bros. have applied to the Direccion de Tierras y Colonias for the right to hand back, in virtue of Law 21st November of last year, a certain number of land concessions they hold in the Chaco Austral, reserving to themselves the right of keeping others granted to them under same conditions in that territory. The Land Office has sent the request of Messrs. Hume to the National Government with a note explaining that the request is plausible and in accordance with law. National interests are not injured by the change; furthermore, the success of an important enterprise, the railway from Nanducito to Presidencia Roca, is involved in the operation.

The Platense steamer Mercurio arrived at the Boca to-day with a crowd of passengers and 450 tons of salt for the Rio Negro Salt Co. Limited. Among her passengers we note Mr. Ernest Buckland and family.

The remarks of our colleague *El Diario* on the sudden rise in gold were read with much interest at the ring. Our colleague states that two English banks bought gold heavily yesterday, and that English brokers bought considerable amounts on orders from joint-stock companies; that a great railway company that buys its materials and coal half-yearly in amounts of 1½ to 2 million gold dollars had availed of the relatively low price of gold to secure all the necessary bills of exchange through the two English banks mentioned above. This is a plausible version of the causes of yesterday's semi-panic.

The gold market opened firm but closed weak at the second ring: the speculation ruled dull; five thousand ounces only were sold for to-morrow: the price opened at 54, fell to 53.70$, rose to 54.10, and closed at 53.70, say 230 per cent premium. Although the market ruled heavy, yesterday's rise has given such a blow to confidence, that few believe now in a falling gold market. In London it appears that the bad impression still continues; telegrams were received to day announcing a further decline in Argentine gold stocks and Cedulas.

Patriotic Bonds advanced to 71.20 for to-morrow. Internal Bonds fell to 63. La Plata Cedulas were very weak at the second ring. Spanish Bank shares rose to 109.

A. BULLRICH Y CIA.
COLOSAL REMATE
DE
TIERRAS
Adaptables para Agricultura.
En la region de los trigos,
Provincia de Santa Fe
Sobre el Ferro-Carril del Rosario a Tucuman.
Linderas a las Estaciones Arruto, Herzilia, Ceres, Selva y Malbran de dicho ferro-carril.
Tierras al alcance del mas pobre labrador.
Divididas en lotes desde 800 hectareas.
Sin Base Ninguna!
y condiciones ventajosas para el pago.
Area a venderse, 235,782 hectareas, o sean 100 leguas kilometricas mas o menos.
Se remataran en la Capital Federal
En nuestra casa Alsina 480 y 482
El Miercoles 10 de Agosto
a las 2 de la tarde
Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma. 233,762 hectareas, 66 areas y 39 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.
La ubicacion de estas queda al Oeste del gran ferro carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.
Comiénsan las tierras que se ofrecen en venta, en la Estacion Arruto del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando el resto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.
Todas estas tierras estan medidas, y mi diendose el resto por el Agrimensor Publico, Señor Eduardo Elquera, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.
Copiamos de una carta de dicho Agrimenser, lo pertinente a la fraccion que acaba de medir, que dice:—
"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (esceptuando las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en parte impenetrables) sino isletas de arboles v. g. ñandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.
"El lote 85 es algo bajo terreno inferior.
"Los demas lotes son adecuados para la agricultura y se encuentaan rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arruto, Herzilia, Ceres, del gran ferro-carril de B. Aires a Tucuman.
"Las poblaciones que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguerizo y ovino) en todas ellas hay jagueles para dar agua a las haciendas.
"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas."
Creemos que con estos datos nada tenemos que alegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.
La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damero cruzado en todas direcciones por lineas ferreas pobladas por innumerables colonias que robosan de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.
Antes del finde este siglo, la Provincia de Santa Fe enviara al mundo de sus granos de todas clases como lo hacen actualmente los Estados Unidos del Norte.
Creemos inutilinsistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.
Llamaremos si la atencion de los compradores sobre las condiciones de la venta a ser:—
Sin base ni limitacion alguna por lo que den.
El pago se hara una cuarta parte al contado y el resto a 6, 9 y 12 meses de plazo con pagare hipotecario.
5 o/o al firmar el boleto a cuenta del precio y en caso de no escriturar dentro de los 30 dias de la venta perdera el comprador dicho 5 o/o y quedara resuelto el contrato a opcion de los vendedores quienes podran exijir la escrituracion si asi les conviene.
Planos y pormenores se obtendran en nuestra casa Alsina 480 y 482.

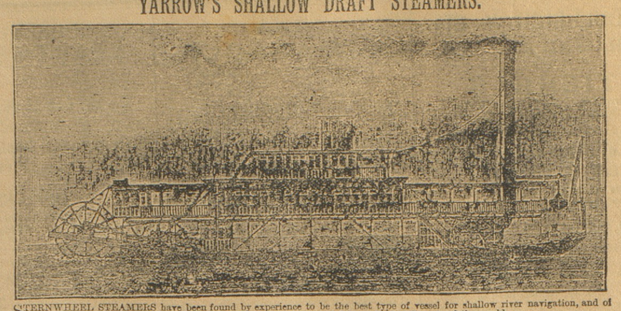
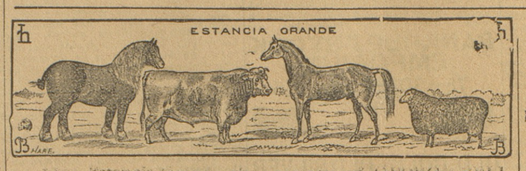
YARROW'S SHALLOW DRAFT STEAMERS.


STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. Yarrow have constructed a large number of successful examples for all parts of the world.
Vessels on this system are constructed, when required, to draw as little as 6 inches.
Messrs. Yarrow lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.
They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.
For full particulars apply to—
YARROW & CO., Shipbuilders,
POPLAR, LONDON.



At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

STEPHENS INKS
IMPORTANT NOTICE
Stephen's Inks
Falsifications of Stephens well-known Blue Black Writing & Copying Fluids are now being sold in this town as the genuine inks. The original bottles which have contained Stephens' Inks are being refilled with the imitation and the trade-mark, labels and seal are very closely copied. The principal difference between the true and the forged label is that the lines and ornamentation in the red ground work of the imitation are blurred and indistinct, instead of being sharp and clean as on Stephens' genuine labels. It is to be noted that the litre and half litre bottles of Stephens' genuine inks have a patent cork attached consisting of a metal rien with teeth into which a cork is fastened. *The fraudulent bottles have no such cork.* The fraudulent ink writes of a greenish blue colour and thickens in the inkstand very rapidly, whereas Stephens' genuine ink writes a strong blue colour and keeps perfectly fluid in the inkstand. Assist in the prevention of this fraud by destroying the bottles which have originally contained Stephen's genuine inks.
Stringent legal proceedings will at once be taken against all dealers selling the fraudulent inks.
